SPECIAL NOTICES

GUARANTEE

Every stamp sold by us is guaranteed as a genuine original unless specified as a reprint, proof, essay, etc.

EXAMINATION OF STAMPS

Because of the time required and the responsibility involved in examining stamps for others, we have decided to discontinue this work.

In the future, we shall decline to make expert examinations.

All stamps sold by us will receive careful examination, as heretofore, and will be guaranteed as to their genuineness. When requested to do so, we shall place our guarantee mark on any important stamp sold by us.

CONDITION

The prices quoted are for specimens in good condition. In most instances extra fine copies bring far higher prices. This is especially the case with such stamps as those of Mauritius, Philippine Islands, New South Wales, etc. The standard of condition, however, varies greatly in the stamps of different countries. Early United States, Great Britain and Victoria stamps, for instance, are, as a rule, very poorly perforated and heavily cancelled, so they cannot be expected in such fine condition as specimens from countries where more care is taken in perforating and lighter cancellations are used. Also in many instances, unused stamps with original gum are worth more than the quotations given by us for ordinary unused specimens in good condition. "Fair" copies, which may have slight defects, and actually damaged specimens, when in stock, are, of course, sold for much less than average copies.

PRICES

All prices are quoted in United States dollars.

The quotations given in this catalogue reflect the actual present condition of the market as gathered from all parts of the world; but the prices of stamps are subject to the general laws of supply and demand, and, therefore, are apt to rise or fall. As a general rule, the quotations given herein will be maintained until the appearance of our next edition, but special altered conditions may make it necessary to raise or lower our selling prices without further

notice. The appearance of new issues naturally sends up the prices of the obsolete stamps. Many important price changes are published in **Scott's Monthly Journal.**

The prices in italics are tentative and represent approximate values. They are based on sales at public auction and other sources of information. The actual selling prices may be considerably affected by the condition of individual specimens or the momentary popularity of the country.

It is impossible to list and price all minor varieties, shades, etc., that exist, without making the catalogue too bulky and complicated for use by the average collector. We usually list in small type the more important minor varieties, but can furnish to specialists other varieties of shades, papers, minor types, cancellations, etc., at current market rates.

DISCOUNTS

No discount allowed on purchases of less than $1.00.
10% discount allowed on purchases from $1.00 to $50.00.
15% discount allowed on purchases from $50.00 to $125.00.
20% discount allowed on purchases from $125.00 to $500.00.

These discounts will apply to purchases over the counter, from "want lists" or from our approval books of the 10% grade, but they will NOT apply to current and recent issues (which are seldom priced much above cost), to sets, packets, stamps on covers and special items, nor to any of our goods other than stamps.

REMITTANCES

Please make all remittances by check, money order, postal note or express order, payable to the Scott Stamp & Coin Co. Do not send coin or currency by unregistered mail.

Orders for less than $1.00 must contain return postage.

Customers are particularly requested to send name and address, clearly written or printed, with every order.

TERMS

Net cash in advance. We cannot hold ourselves responsible for letters lost in transit.

All orders will be filled, as far as possible, on the day of receipt.

Any desired selections of stamps will be made up and sent on approval to collectors having established credit or furnishing satisfactory references.

For full particulars regarding this service see page describing Approval Department in back of Catalog, or write us for special circular.

HOW TO ORDER

The numbers in the first column will serve to facilitate ordering from the Catalogue; thus, if you wish to order a used copy of the United States stamp listed on page 2 as "17 A1 5c bluish 100.00 60.00" your order may read as follows:

United States, No.17 used $60.00

thereby doing away with the necessity of long descriptions. The second column indicates the number of the illustration in the Catalogue; the third the nominal or face value, and the fourth the color of the stamp; the fifth, our price for an uncancelled specimen, and the sixth, our price for a cancelled one.

Although our stock is one of the largest in the world, it is impossible to keep on hand at all times a full supply of even the medium priced stamps. Therefore, in ordering, lists should be sent to us for at least twice the amount remitted, so that the customer may be sure of receiving goods to the full value of the remittance made. We never substitute stamps not ordered for others which may not be in stock.

ABBREVIATIONS

A.--Asia; AF.--Africa; CA.--Central America; E.--Europe; NA.--North America; O.--Oceanica; SA.--South America; WI.--West Indian Islands.

Where the color of a surcharge is omitted, it is understood to be black. In some cases, where necessary for more convenient arrangement, we have indicated the color of a surcharge on a stamp by a capital letter in parenthesis, thus (B). These abbreviations will be readily understood "B" indicating black, "Bl" blue, "R" red, "G" green, etc.

Whenever a stamp is printed in black on colored paper, the color of the paper alone is given in italics. Where no special color is given, it is understood that the paper is white.

"Chalky," or more properly "chalk-surfaced" paper is a distinction from "ordinary" paper, interesting chiefly to specialists. We have endeavored to inform collectors regarding the paper on which the stamps exist, either by the headings or notes.

All stamps listed in the catalogue are imperforate and unwatermarked, unless it is stated to the contrary. When a perforation or watermark is given, the description applies to all succeeding stamps until some different description appears.

REPRINTS

These are usually noted, where existing, although not, as a rule, priced in the catalogue. In our books of special countries for advanced collectors, reprints will be offered; but every specimen will be stamped "reprint" on the reverse. However, in no case must reprints be confounded with re-issues, as the latter are understood to be stamps which were receivable for postage.

OUR DOWN-TOWN BRANCH

New York customers will please note that we have only one down-town branch, and that is located at 178 Fulton Street, opposite St. Paul's Church. No mail orders are filled at the down-town branch, but New York collectors will find there a suite of very pleasant and well lighted offices, where all our publications and supplies are carried in stock and a very large and fine assortment of stamps is always on hand.

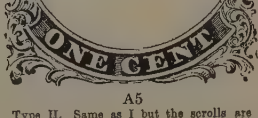
A4

ONE CENT.

Type I. Has a curved line outside the labels with "U.S. Postage" and "One Cent." The scrolls below the lower label are turned under, forming little balls. The scrolls and outer line at top are complete.

Type Ia. Same as I at bottom but scrolls and outer line at top are partly cut away.



A5

Type II. Same as I but the scrolls are not turned under,

A6

Type III. Same as II but the curved lines outside the labels at top and bottom are broken in the middle. The side ornaments are complete.

Type IIIa. Same as III with the outer line broken at top or bottom but not both.

A7

Type IV. Similar to II, but with the curved lines outside the labels recut at top or bottom or both.

Prices for types I and III are for stamps showing the marked characteristics plainly. Copies of type I showing the balls indistinctly and of type III with the lines only slightly broken, supplied at much lower prices.

A8

THREE CENTS.

Type I. There is an outer frame line at top and bottom.

A9

FIVE CENTS.

Type I. There are projections on all four sides.

A10

TEN CENTS.

Type I. The "shells" at the lower corners are practically complete. The outer line below the label is very nearly complete. The outer lines are broken above the middle of the top label and the "X" in each upper corner.

A10a

Type II. The design is complete at the top. The outer line at the bottom is broken in the middle. The shells are partly cut away.

10b

Type III. The outer lines are broken above the top label and the "X" numerals. The outer line at the bottom and the shells are partly cut away, as in Type II.

Type IV. The outer lines have been recut at top or bottom or both.

Types I, II, III and IV have complete ornaments at the sides of the stamps and three pearls at each outer edge of the bottom panel.

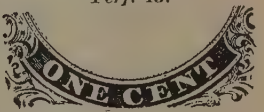
From investigations by careful students it seems probable that Nos. 37, 38 and 39 were not regularly issued but came from trial printings. But, because there is not positive proof of this and because these imperforate varieties have long been accepted by collectors, we retain them in the catalogue.

There is also a possibility that a trial printing in black of the 30 cent stamp was sold and used for postage. A similar lack of evidence decides us to withhold recognition of this stamp.

1857-60

Same Designs as 1851-60 Issues.

Perf. 15.



ONE CENT. A15

Type V. Similar to type III of 1851-56 but with side ornaments partly cut away.

1873

Printed by the Continental Bank Note Co.

Designs of the 1870-71 Issue with secret marks on the values from 1c to 15c, as described and illustrated below

A57

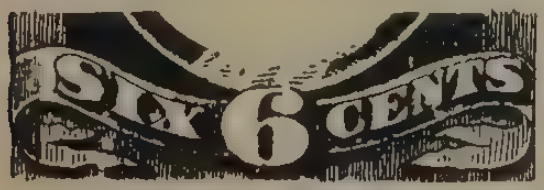
1c. In the pearl at the left of the numeral "1" there is a small dash.

A58

2c. Under the scroll at the left of "U. S." there is a small diagonal line.

A59

3c. The lower part of the tail of the left ribbon is heavily shaded.



A60

6c. The first four vertical lines of the shading in the lower part of the left ribbon have been strengthened.

A61

7c. Two small semi-circles are drawn around the ends of the lines which outline the ball in the lower right hand corner.

A62

10c. There is a small semi-circle in the scroll at the right end of the upper label.

A63

12c. The balls of the figure "2" are crescent shaped.

A64

15c. In the lower part of the triangle in the upper left corner two lines have been made heavier forming a "V".

Secret marks were added to the dies of the 24c, 30c and 90c but new plates were not made from them. The various printings of these stamps can only be distinguished by the shades and paper.

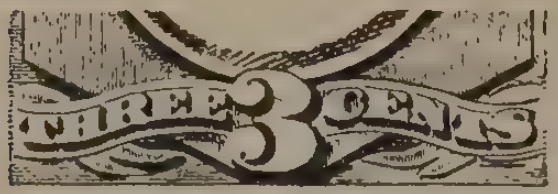
A66

1c. The vertical lines in the upper part of the stamp have been so deepened that the background often appears to be solid. Lines of shading have been added to the upper arabesques.



A67

3c. The shading at the sides of the central oval appears only about one-half the previous width. A short horizontal dash has been cut about 1mm below the "TS" of "CENTS."

6c. On the original stamps four vertical lines can be counted from the edge of the panel to the outside of the stamp. On the re-engraved stamps there are but three lines in the same place.

10c. On the original stamps there are five vertical lines between the left side of the oval and the edge of the shield. There are only four lines on the re-engraved stamps. In the lower part of the latter, also, the horizontal lines of the background have been strengthened.

With this series the Post Office Department began issuing stamps in coils for use in vending and affixing machines. The stamps in coils are perforated on two sides only, either horizontally or vertically, and are imperforate on the other two sides. The perforation was at first 12. In 1910 the gauge was changed to 8½ and in 1914 to 10. During this period certain denominations were sold in imperforate sheets for use in the machines, the makers of which also applied to the stamps a variety of private perforations and other forms of separation.

No. 303 was issued by the Government imperforate, but all known copies have large oblong perforations at the sides, privately applied for machine use.

Several values of the 1902 and later issues are found on an apparently coarse ribbed paper. This is caused by worn blankets on the printing press and is not a true paper variety.

HEAD OF WASHINGTON.

Design of 1908-09 Issue.

There are several types of some of the 2c and 3c stamps of this and the succeeding issues. For the benefit of specialists, we describe these types under the dates at which they first appeared. The differences between the types are usually minute and difficult to distinguish. As they do not appear to interest general collectors we do not separate them in this Catalogue. A detailed listing of the stamps in their several types will be found in our Specialized United States Catalogue. Specialized selections can be supplied on request.

TWO CENTS.

Type I. There is one shading line in the first curve of the ribbon above the left "2" and one in the second curve of the ribbon above the right "2." The button of the toga has only a faint outline. The top line of the toga, from the button to the front of the throat is also very faint.

TWO CENTS.

Type II. Shading lines in ribbons as on type I. Left side of ear defined by a white line between two colored lines, looking like a hair. The lower left edge of the longest lock in front of the ear has an outline of color. The button has a distinct outline and the top line of the toga is strong and clear.

Type III. Two lines of shading in the curves of the ribbons. Front of ear, lock of hair, outlines of button and toga as on type II.

THREE CENTS.

Type I. Only a faint line between the lips. Very few lines in hair above ear and at top of head. Two deep lines near point of chin.

The Rotary Press stamps are printed from plates that are curved to fit around a cylinder. This curvature produces stamps that are slightly larger, either horizontally or vertically, than those printed from flat plates. Stamps from flat plates measure about 18½-19 mm. wide by 22½ mm. high. When the impressions are placed sideways on the curved plates the stamps are 19½-20 mm. wide; when they are placed vertically the stamps are 23 mm. high.

Types of 1917-19 Issue.

TWO CENTS.

Type IV. There are five vertical lines on the button of the toga; the first and second, fourth and fifth are connected at top and bottom.

Type V. There are five straight lines on the button, and more lines and dots on the ribbons than on type IV.

Type VI. In the "9" at the left the line of color between the body and the tail of the numeral is much heavier than on types IV and V.

THREE CENTS.

Type III. Jaw shaded by horizontal lines only. Middle line on button is a dot between two small dashes. A thin colored line between "P" and "O" of "POSTAGE."

Type IV. Jaw shaded by horizontal and diagonal crossed lines. Line between lips bends down at right end. Middle line on button is a dot with a vertical line through it. Lines each side of middle are made of two small dashes. "P" and "O" of "POSTAGE" joined.

ENVELOPES.

Most of the differences in envelope designs are to be found in the central oval which are not permitted to be illustrated. We have illustrated as far as the law allows and have given detailed descriptions of varieties not shown.

Prices are for cut square specimens, for entire envelopes special prices will be furnished.

Many different dies and minor varieties exist of the issues of envelopes from 1853 to 1865. At the request of many general collectors we now catalogue only those dies which are most generally known. To collectors interested, we will also quote prices on any special varieties which we have in stock.

The papers of these issues also vary greatly in texture, and in color from yellowish to bluish white, and from amber to dark buff.

1874 PLIMPTON ISSUE.

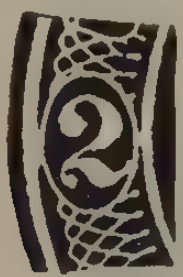
The profiles in this issue are mostly poor, and are wretched imitations of the fine engravings of the Reay issue.

1c. Die A—Bust forms a corner at the back near the frame. Lettering very poorly executed. Distinct circle in "O" of "POSTAGE".

1c. Die B—Lower part of bust points to the end of the "E" of "ONE". Head inclined downwards.

2c. Die A—Bust narrow at the back. Thin figures of value. The head of the "P" of "POSTAGE" is very narrow.

2c. Die B—Bust broad. Figure of value in long ovals.



Die B2

2c. Die B2—Similar to Die B, but the figure "2" at the left touches the oval.

2c. Die B3—Similar to Die B, but the "O" of "TWO" has the centre netted instead of plain, and the "G" of "POSTAGE" and "C" of "CENTS" have a diagonal cross line.

2c. Die C—Bust broad. Numerals in ovals short and thick.

2c. Die C2—Similar to Die C, but the ovals containing numerals are much heavier and the tail of the figure "2" at left usually touches the oval. A diagonal line runs from the upper part of "U" to the white frame line.

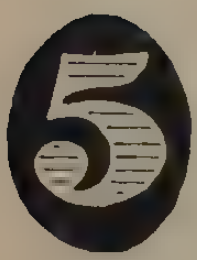
2c. Die C3—Similar to Die C, but the middle stroke of "N" of "CENTS" is as thin as the vertical strokes.

2c. Die D—Bottom of bust cut almost semicircularly.

3c. Die A—Thin lettering. Long, thin figures of value.

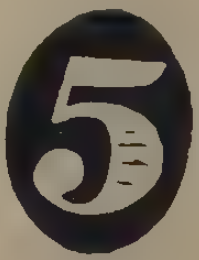
3c. Die B—Thick lettering. Well formed figures of value.

3c. Die C—Top of head egg shaped. Knot of queue well marked.



Die A

E24



Die B

5c.—Taylor—Die A—Figures of value with thick curved tops.

5c. Die B—Figures of value with long, thin tops.

6c.—Neck very short.

7c.—Figures of value turned up at the end.

10c. Die A—Very large head, usually known as "Booby Head."

10c. Die B—Knot of queue stands out prominently.

12c.—Face idiotic. Nose crooked. Ear prominent.

15c.—Has no side whiskers.

24c.—Hair does not project. The ornaments around the inner oval end in points.

30c.—Back of bust rather broad. Chin slopes considerably. The labels containing the figures of value are not exactly parallel.

90c.—Front of bust sloping. Inner lines of shields project considerably into the inner oval.

The original die has one short and two long vertical lines at the right of "CENTS." On the recut die these lines are different and usually all short. The lettering is heavier on the recut die and the ends of the ribbons have been slightly changed.

1907-10 E37

Inscriptions in large, plain, colorless letters. Large, colorless numerals of value at sides.

The following dies were made for this issue:

	Engraved Dies	Electrotypes
1c	4	6
2c	9	38
4c	2	
5c	2	

Most of these dies are very much alike for each value and, it is almost impossible to give descriptions by which they may be distinguished one from the other.

REVENUE STAMPS.

General Issue.

First Issue. Head of Washington in Oval, Various Borders as Illustrated.

Nos. 3800-b to 3841-b, part perforate, occur perforated sometimes at sides only and sometimes at top and bottom only. The higher values, part perforate, are perforated at sides only. Imperforate and part perforate revenues often bring much more in pairs or blocks than as single copies.

The experimental silk paper is a variety of the old paper and has only a very few minute fragments of fibre.

Pronounced shades and color variations exist of nearly all denominations, particularly the 4c, $1.00 and $2.50.

There are two styles of rouletting for the proprietary and documentary stamps of the 1898 issue, an ordinary rouletting and one by which small rectangles of the paper are cut out, usually called hyphen-hole perforation. With the exception of Nos. 4025, 4026 and 4039 to 4042 inclusive, all the stamps of the two series exist with both roulettes.

The surcharge on No. 4500 was handstamped at an Internal Revenue Office.

The surcharges on Nos. 4501 to 4508 inclusive and No. 4512 were applied by the manufacturers, together with their initials, dates, etc., thus forming a combination of surcharge and cancellation. The surcharge on No. 4513 was made by the Bureau of Engraving and Printing. After it appeared the use of the combinations was continued but only as cancellations.

PRIVATE PROPRIETARY STAMPS.

The various papers were in use at the following dates :
Old paper, 1862-71 ; Silk paper, 1871-77 ; Pink paper, 1877-78 ; Wmkd. paper, 1878-83.
The experimental silk paper is a variety of the old paper and has only a very few minute fragments of fibre.

These stamps were usually torn in opening the box or container. Prices quoted are for specimens in fine condition, which may be either used or unused. Specimens in ordinary condition are worth 20 per cent. to 90 per cent. less.

PROVISIONAL ISSUES.

These stamps and envelopes were issued in 1861 by the postmasters of the different cities. In making the envelopes, the cancelling stamps of the post offices were frequently employed. It is often difficult to determine whether such a mark was used provisionally or merely indicates postage paid at the time the letter was deposited in the post office. Occasionally the same mark was used for both purposes. It is possible that there are other envelopes, besides those listed here, which are equally worthy of recognition.

The surcharges on Nos. 8 to 56 inclusive were hand stamped, the work being very roughly done. Apparently any color of ink that was at hand was used. It is not at all improbable that other varieties may exist.

As is usual with handstamped surcharges there are many inverted and double.

Two types of the 10r yellow, 40r blue and 50r blue, differing in the figures of value.

No. 14 was due to a cliché of the 40r being inserted in the plate of the 20r. The error was discovered before the stamps were issued. All copies were removed from the sheets and cancelled by a blue pencil mark.

The reprints of the 1870-85 issues are printed on a smooth white chalky paper, ungummed and perforated 13½. Also on thin white paper with shiny white gum and clean cut perforation 13½.

Both clear and rough impressions of these stamps may be found. They have generally been called Paris and Local prints, respectively, but the opinion now obtains that the differences are due to the impression and that they do not represent separate issues.

All three values have been reprinted in black, brownish black, blue and red brown on thin hard white paper. The 1r has also been reprinted in green on bluish paper.

Printed from settings of eight varieties, three or four impressions constituting a sheet. Some impressions were printed inverted and tête bêche pairs may be cut from adjacent impressions.

From Jan. 1st to Feb. 24th, 1864, No. 4 was used as a 5 centavos stamp but copies so used can only be distinguished when they bear dated cancellations.

The reprints show numerous spots and small defects which are not found on the originals. They are printed on gray blue, dull blue, gray green, dull orange and light magenta papers.

The stamps of this issue were printed on a rough paper, varying in thickness and having a watermark in script letters K. K. H. M., the initials of Kaiserlich Koniglich Hofmarke Minister-ium (Imperial and Royal Ministry of Commerce and Valors). Parts of these letters show on a few stamps in the sheet. A thick, smooth paper without watermark was also used.

The reprints are printed in lighter colors and some are printed on paper watermarked "Briefmarken" in the sheet.

Nos. 1, 2 and 5b were probably never placed in use.

These stamps were superseded by those of Hamburg in 1867 and those in turn by those of the North German Confederation in 1868.

REPRINTS.

½ SCHILLING.

There is a dot in the upper part of the right branch of "N" of "EIN". The upper part of the shield is blank or almost blank. The horizontal bar of "H" in "HALBER" is generally defective.

1 SCHILLING.

The "1" in the corners is generally with foot. The central horizontal bar of the "E" of "EIN" is separated from the vertical branch by a black line. The "A" of "POSTMARKE" has the horizontal bar incomplete or missing. The horizontal bar of the "H" of "SCHILLING" is separated from the vertical branches by a dark line at each side, sometimes this bar is missing.

1½ SCHILLINGE.

There is a small triangle under the right side of the tower, exactly over the "R" of "POSTMARKE". The word "SCHILLINGE" has a final "E" which is not the case with originals.

3 SCHILLINGE.

The head of the eagle is not shaded. The horizontal bar of the second "E" of "BERGEDORF" is separated from the vertical branch by a thin line. There is generally a colored dot in the lower half of the "8" of "POSTMARKE".

4 SCHILLINGE.

The upper part of the shield is blank or has two or three small dashes. In most of the reprints there is a diagonal dash across the wavy lines of the groundwork at the right of "I" and "E" of "VIER".

BOLIVIA, S. A.

100 CENTAVOS = 1 PESO = 1 BOLIVIANO.

Pen cancellations are common on the stamps of the earlier issues of Bolivia. They usually indicate that the stamps have been used fiscally and such stamps are worth very much less than those with postal cancellations.

72 varieties of each of the 5c, 78 varieties of the 10c, 30 varieties of each of the 50c and 100c.

The plate of the 5c stamps was entirely re-engraved four times and retouched at least six times. Various states of the plate have distinguishing characteristics, each of which is typical of most, though not all the stamps in a sheet. These characteristics (usually termed types) are found in the shading lines at the right side of the globe. 1st: vertical and diagonal lines; 2d: diagonal lines only; 3d: diagonal and horizontal with traces of vertical lines; 4th: diagonal and horizontal lines; 5th: horizontal lines only; 6th: no lines except the curved ones forming the outlines of the globe.

Stamps of the 1894 type on thick paper were surreptitiously printed in Paris on the order of an official and without government authorization. Some of these stamps were substituted for part of a shipment of stamps on thin paper, which had been printed in London on government order. When the thick paper stamps reached Bolivia they were at first repudiated but afterwards were allowed to do postal duty. A large quantity of the thick paper stamps were fraudulently cancelled in Paris with a cancellation of heavy bars forming an oval. If copies of the thick paper stamps can be proven to have been purchased at post offices in Bolivia or to have genuine cancellations of that country they are, of course, entirely collectable.

We have no proof that the 10c in blue on thick paper was ever issued.

BOSNIA AND HERZEGOVINA, E.

100 NOVCICA=1 FLORIN.
100 HELLER=1 KRONE.

A1

1879-94

Type I. The heraldic eaglets on the right side of the escutcheon are entirely blank. The eye of the lion is indicated by a very small dot, which sometimes fails to print. All values except the ½n exist in this type.

Type II. There is a colored line across the lowest eaglet. A similar line sometimes appears on the middle eaglet. The eye of the lion is formed by a large dot which touches the outline of the head above it. All values are found in this type.

Type III. The eaglets and eye of the lion are similar to type I. The lowest feather of the tail of the large eagle has two lines of shading and does not touch the curved line below it. In types I and II there are several shading lines in this feather, which touches the curved line. Only the 5n is found in type III.

Varieties of the Numerals:

2 NOVCICA:

A. The "9" has curved tail.
B. The "9" has straight tail.

10 NOVCICA:

C. The serif of the "1" is short and forms a wide angle with the vertical stroke.

D. The serif of the "1" is longer and forms an acute angle with the vertical stroke.

15 NOVCICA:

E. Same as variety C of the 10n.

F. Same as variety D of the 10n.

The numerals of the 5n were retouched several times and show minor differences, especially in the flag.

Other Varieties.

½ NOVCICA:

There is a colored dot between the curved ends of the ornaments near the lower spandrels. In variety G this dot touches the curve at its right. In variety H. the dot stands clear of the curved lines.

10 NOVCICA:

Ten stamps in each sheet of type II show a small cross in the upper section of the right side of the escutcheon.

Nos. 35 to 43 inclusive were type-set, there being twenty-four types of each value. They were initialed before use "R. M. Ac. R. G"., being the initials of Robert Mather, Acting Receiver General.

Black ink was used on the rose stamps, red ink on the yellow and an alkali was used on the blue stamps, which, destroying the color of the paper, caused the initials to appear to be written in white.

Uninitialed stamps are remainders, a few sheets having been found some years ago.

Narrow space between the value and the word "Cents."

Nos. 103 to 106 inclusive were type-set, twelve to a sheet, and, to prevent fraud on the government, the word "*Specimen*" was perforated across them before they were issued. There were two settings of the 1c and three settings of the 2c, thus there are twenty-four types of the former and thirty-six of the latter.

Nos. 11, 12, 13 and 14 are surcharged upon Panama stamps Nos. 77, 78, 79 and 81 respectively. There are several settings of the "Canal Zone" surcharge which, in addition to the words in antique type have minor varieties, such as "A" and "L" of "Canal" widely spaced, and various broken letters. The "Panama" surcharge varies in colors. The bar is either 2 or 2½mm. wide and is sometimes misplaced so that it appears at the bottom instead of the top of the stamp. In the "8 cts" surcharge there are several minor varieties of the figure "8."

8c on 50c stamps of this type without "Canal Zone" surcharges were not issued in the Canal Zone, so far as we can learn.

1918 **First Re-engraving.**

125 A49 8c slate 1.00

No. 125 is a re-engraving of No. 115. The top of the head is further from the oval, the spots of color enclosed in the figures "8" are oval instead of round, and there are many small differences in the design.

1921 **Second Re-engraving.**

126 A49 8c gray 1.00

No. 126 differs from No. 125 in not having diagonal lines in the frame and only a few diagonal lines above the shoulders, while No. 125 has diagonal lines in the oval up to the level of the forehead.

140 A45 5p olive green & black (1920) 2.00 35
141 A46 10p orange yellow & black (1925) 4.00 1.00

The engraved stamps of these types have horizontal and diagonal ruled lines in the background outside the oval. The typographed 1, 2, 4, 10, 25, 50c and 1p have only the horizontal lines.

The heads of the bi-colored stamps are engraved and the frames typographed.

No. 128a is from a new or cleaned plate. The lines are clearer than on No. 128 but the design has not been redrawn, as has been claimed. Nos. 131a and 134a are printed from new head plates which give blacker and heavier impressions. These two stamps have been termed "all typographed" but this is not correct, as the heads are engraved.

A 4c stamp with portrait of Balmacedas and a 14c with portrait of Manuel de Salas were prepared but not placed in use. The 4c stamp was probably suppressed for political reasons. The 14c stamps were injured by dampness and were sent to the paper mill at Puento Alto for destruction. A dishonest employee stole a large quantity of the stamps and sold them, usually at high prices.

The stamps of this issue were printed in London and afterwards in Peking. The latter prints are from new plates, showing differences in the designs which are too minute for description or illustration.

The higher values of this issue are often overprinted with Chinese characters, which are the names of various postal districts. Stamps are frequently stolen while in transit to post offices. The overprints serve to protect them, since the stamps can only be used in the districts for which they are overprinted.

Types of 1913-18 Issue.

Re-engraved.

Type A29: Most of the "whitecaps" in front of the junk have been removed and the water made darker. The shading lines have been removed from the arabesques and pearls above the top inscription. The inner shadings at the top and sides of the picture have been cut away.

Type A30: The heads of rice in the side panels have a background of crossed lines instead of horizontal lines. The Temple of Heaven is strongly shaded and has a door. There are rows of pearls below the Chinese characters in the upper corners. The arabesques above the top inscription have been altered and are without shading lines.

Type A31: The curved line under the inscription at top is single instead of double. There are four vertical lines, instead of eight, at each side of the picture. The trees at the sides of the temple had foliage in the 1913-18 issue but now the branches are bare. There are numerous other alterations in the design.

The so-called Postage-Due Stamps were never issued.

The Stamps of Cochin China were superseded by those of Indo-China in 1892.

COLOMBIAN REPUBLIC, S. A.

100 CENTAVOS=1 PESO

Very few towns or districts of the Colombian Republic were supplied with handstamps for cancelling purposes and the pen cancellations do not indicate fiscal use. As far as we know no postage stamps were ever used for revenue purposes.

Fractions of many Colombian stamps of both early and late issues are found cancelled, their use to pay postage having been tolerated even when not authorized.

1876-77 **Wove Paper.**

5 pesos, re-engraved: The ornament at the left of the "C" only touches the "C", and the shading of the flag is formed of vertical and diagonal lines.

10 pesos, re-engraved: The stars are distinctly five pointed, and there is no shading in the central part of the shield.

78	A25	5p *light green*, re-engraved	9.00	5.00
79	A26	10p *rose*, re-engraved	9.00	2.00

Stamps of the issues of 1871-77 are known with private perforations of various gauges, also with sewing machine perforation.

In the reprints of the 5 pesos the ornament at the left of the "C" of "Cinco" is separated from the "C" by a black line, and the ornament at the left of the "C" of "Correos" touches the "C".

In the reprints of the 10 pesos the outer line of the double circle containing "10" is broken at the top, below "OS" of "Unidos", and the vertical lines of shading contained in the double circle.

are very indistinct. There is a colorless dash below the loop of the "P" of "Pesos".

Reprints of the 10c and 20c are much worn. On the 10c the letters "TAVOS" of "CENTAVOS" often touch. On the 20c the letters "NT" of "VIENTE" touch and the left arm of the "7" is too long. Reprints of the 25c, 50c and 1p have the characteristics previously described. The reprints are on white wove or laid paper, on colored papers, and in fancy colors. Stamps on green paper only exist as reprints.

1881 White Wove Paper.

1 centavo: The period before "UNION" is round and there are rays between the stars and the Condor.

2 centavos: The "2" s and "C" s in the corners are placed upright.

5 centavos: The last star at the right almost touches the frame.

10 centavos: The letters of the inscription are thin; there are rays between the stars and the Condor.

Nos. 109 to 111 are found with regular or sewing machine perforation, unofficial.

Reprints:

1c. The top line of the stamp and the top frame extend to the left.

2c. There is a curved line over the scroll below the "AV" of "CENTAVOS".

5c. There are scratches across the "5" in the upper left corner.

All three values were reprinted on the three colors of paper of the originals.

1883 Re-engraved.

1 centavo: The period before "UNION" is square, and the rays between the stars and the Condor have been wholly or partly erased.

2 centavos: The "2" s and "C" s in the corners are placed diagonally.

5 centavos: The last star at the right touches the wing of the Condor.

10 centavos: The letters of the inscription are thick; there are no rays under the stars; the last star at the right touches the wing of the Condor and this wing touches the frame.

In 1914 the government sold a large quantity of stamps at very much less than face value. The lot included most regular issues from 1901 to 1911 inclusive, postage due stamps of 1903 and official stamps of 1901-03. These stamps were cancelled with groups of thin parallel bars. They are, of course, worth much less than our quotations which are for stamps with regular postal cancellations.

1882

1st retouch 2d retouch

The differences between the stamps of 1882 and the various retouches are as follows:

Original state: The medallion is surrounded by a heavy line of color of nearly even thickness, touching the horizontal line below the word "Cuba" (or "Filipinas", as the case may be); the opening in the hair above the temple is narrow and pointed.

First retouch: The line around the medallion is thin, except at the upper right, and does not touch the horizontal line above it; the opening in the hair is slightly wider and a trifle rounded; the lock of hair above the forehead is shaped like a broad "V" and ends in a point; there is a faint white line below it, which is not found on the stamps in the original state. Owing to wear of the plate the shape of the lock of hair and the width of the white line below it vary.

Second retouch: The opening in the hair forms a semi-circle; the lock above the forehead is nearly straight, having only a slight wave, and the white line is much broader than before.

1905-07 Re-engraved.

The re-engraved stamps of 1905-07 may be distinguished from the issue of 1899 as follows:

1c: The ends of the label inscribed "Centavo" are rounded instead of square.

2c: The foliate ornaments, inside the oval disks bearing the numerals of value, have been removed.

5c: Two lines forming a small right angle have been added in the upper corners of the label bearing the word "Cuba."

10c: A small ball has been added to each of the square ends of the label bearing the word "Cuba".

CZECHOSLOVAKIA, E.

100 HELLERS=1 KRONE.

Stamps of Austria surcharged "Ceskoslovenska Republica," lion and "Cesko Slovensky Stat," "Provisorni Ceskoslovenska Vlada" and Arms, and "Ceskoslovenska Statni Posta" and Arms were made privately. A few of them were passed through the post but all have been pronounced unofficial and unauthorized by the Postmaster General.

During the occupation of part of Northern Hungary by the Czechoslovak forces, stamps of Hungary were surcharged "Cesko Slovenska Posta", "Ceskoslovenska Statni Posta" and Arms, and "Slovenska Posta" and Arms. These stamps were never officially issued though copies have passed the post.

NORMAL FRAME

INVERTED FRAME

The arabesques in the corners have a main stem and a branch. When the frame is in normal position, in the upper left corner the branch leaves the main stem half way between two little leaflets. In the lower right corner the branch starts at the foot of the second leaflet. When the frame is inverted the corner designs are, of course, transposed.

The plate of the 10 ore, No. 39, was damaged and three cliches in the bottom row were replaced by cliches for post cards, which had small numerals in the corners, making the variety No. 39a.

A cliche with small numerals was inserted in the plate of No. 40. Impressions from this cliche can only be distinguished from No. 37 when in a pair with No. 40.

The issues of 1892, 1894, 1895 and 1896 were printed by the Hamilton Bank Note Co., New York, to the order of N. F. Seebeck, who held a contract for stamps with the government of Ecuador. This contract gave the right to make reprints of the stamps and such were subsequently made in some instances, as will be found noted in Italic type. Our stock has been carefully examined and the stamps sold by us are guaranteed to be originals.

In July, 1902, following the theft of a quantity of stamps during a fire at Guayaquil, the Government authorized the Governors of the various provinces to hand-stamp their stocks on hand. Many varieties of these handstamps are known and others doubtless exist.

The doubtful claim of these control-marked stamps to rank as major varieties, the difficulty of distinguishing the authorized from the counterfeit and bogus, and the slight interest taken in them by collectors generally has caused us to omit the list from this catalogue, but we can supply selections at current prices to those interested.

Other control-marks were used in 1907.

Semi-Postal Stamp of 1920-21

Surcharged **POSTAL**

259	SP6	20c bistre brown	65	65

In May 1926 various stamps of the 1915-25 issues were overprinted with a locomotive and "QUITO-1926-ESMERALDAS," in celebration of the beginning of work on a railway between those places.

SEMI-POSTAL STAMPS

The Semi-Postal Stamps did not pay postage but their use was compulsory on every letter, paper or parcel passing through the mails. The money derived from the sale of these stamps was to provide a fund for rebuilding post offices.

The 2 l and 3 l are engraved stamps of the 1911 issue, the others are lithographed stamps of the 1912-14 issue.

In addition to the foregoing there exist various issues of which the official character has not been established. They are probably fantasies and, at best, are merely local issues.

No. 4 was never placed in use, owing to a change in rates after the stamps had been prepared. It was thought to make them available by surcharging them "25c" in red. The result was not satisfactory and the stamps were destroyed. It is claimed that only one copy of this essay exists.

An ungummed sheet of No. 8c was found in 1895 among the effects of M. Hulot, the printer. It was sold to M. Vervelle, by whose name the stamps are known.

Three Types of the 20c.

A9—Type I. The inscriptions in the upper and lower labels are small and there is quite a space between the upper label and the circle containing the head; there is also very little shading under the eye and in the neck.

A10—Type II. The inscriptions in the labels are similar to those of the first type, the shading under the eye and in the neck is heavier and the upper label and circle almost touch.

A11—Type III. The inscriptions in the labels are much larger than those of the two preceding types, and are similar to those of the other values of the same type in the set.

The 10c and 35c, type I, were slightly retouched by adding thin white outlines to the sack of grain, the under side of the right arm and the back of the shirt. It is difficult to distinguish the retouches except on clearly printed copies. The white outlines were made stronger on the stamps of type II.

In 1917 the stamps of the 1900-07 types were printed on paper of poor quality, usually grayish and containing bits of fibre. This is termed G. C. (Grande Consommation) paper.

The Chinese characters surcharged on Nos. 18 to 31 inclusive are the Chinese equivalents of the French values and, therefore, differ on each denomination. Another printing of these stamps was made in 1904 which differs from the first one principally in the size and shape of the letters in "CHINE" particularly the "H" which is much thinner in the second printing.

Stamps of Indo-China, 1892-1906, Surcharged in Black or Red

銀八厘花

A second printing of the 1906 surcharges of Canton, Hoi Hao, Kouang Tcheou Wan, Mong-tseu, Packhoi, Tchong King and Yunnan Fou was made in 1908. The inks are grayish instead of full black and vermilion instead of carmine. Our prices are for the cheaper variety which, in most cases, is the second printing.

The 4 and 50c of the 1892-96 issue of Indo-China are known with the above surcharge and similarly surcharged for other cities in China. These surcharges on these two stamps are always inverted. It is stated that they were irregularly produced and were never issued.

The stamps of types A10, A11 and A12 of the 1928 issue differ from those of 1915 in many details which are too small to be successfully illustrated. In the stamps of 1917 the sky is indicated by ruled lines, in 1928 it is made of minute dots. In the 1917 issue the tablets in the upper corners and at bottom have lines in the backgrounds, in 1928 the backgrounds are of solid color.

The stamps of 1915 were line engraved, those of 1917-27 were printed by heliogravure and have in the margin at lower right the inscription "Helio Vaugirard."

Stamps of the 1919-20 types with parts of the design inverted, sideways, omitted, etc., are not genuine errors. They are fraudulent varieties, surreptitiously made.

There are in the market stamps of the 1919-20 issues with a five line overprint meaning "Day of the National Guard, 12, 12, 1920", and another set with four line overprint meaning "Recognition of Independence, 27, 1, 1921." It is stated that such issues were contemplated but before they were made the Russian forces occupied the country and the heads of the Georgian Government fled, taking a large quantity of stamps with them. The overprinted stamps were subsequently offered for sale. It has been stated that the overprinting was done in Italy.

The Georgian Consul at Constantinople also had stamps surcharged "Constantinople" and new values. It is not probable that a Consul had authority to make special issues of stamps and Georgia was not one of the nations to whom Turkey had granted the privilege of using their own stamps.

OFFICIAL STAMPS.

In 1920 the Official Stamps of Bavaria and Wurtemberg then current were overprinted "Deutsches Reich" and made available for official use in all parts of Germany. They were, however, used almost exclusively in the two states where they originated and we have listed them among the issues of those states.

The normal watermark (sometimes termed the "repeated" watermark) has a space between the letters "G. R." The royal cyphers are placed one above the other and usually two appear on each stamp. In the multiple watermark the letters "G. R." touch, the cyphers are smaller and are so placed that those in each succeeding row are below the spaces between the cyphers in the row above.

The impression of the engraved stamps is sharper than that of the lithographed. In the engraved stamps a few of the horizontal lines at the extreme top of the design are heavier than those below them. The second 5c of the engraved issue has a larger numeral than the lithographed stamp, as is shown in the illustrations.

The overprint "OFICIAL" which was applied to Guatemalan stamps in 1923-25, was merely a control mark. It was used only in Guatemala City, in order to prevent the theft of stamps by post office employees. This overprint has been extensively counterfeited.

Reprints:

1½s: The rosettes between the words of the inscription have a well defined open circle in the centre of the originals, while in the reprints this circle is filled up.

In the upper part of the top of the "g" of "Shilling," there is a thin vertical line which is missing in the reprints.

The two lower lines of the triangle in the upper left corner are of different thicknesses in the originals while in the reprints they are of equal thickness.

The labels at the right and left containing the inscriptions are 2½ mm. in width in the originals while they are the 2½ mm. in reprints.

1½s: The originals are printed on thinner paper than the reprints. This is easily seen by turning the stamps over, when on the originals the color and impression will clearly show through, which is not the case in the reprints.

The vertical stroke of the upper part of the "g" in Shilling is very short on the originals, scarcely crossing the top line, while in the reprints it almost touches the centre of the "g."

The lower part of the "g" of Shilling, in the originals, barely touches the inner line of the frame, in some stamps it does not touch it at all, while in the reprints the whole stroke runs into the inner line of the frame.

In 1885 the Postmaster General wished to have on sale complete sets of the stamps of Hawaii, but was unable to find either the stone from which Nos. 27 and 28, or the plate from which No. 29 was printed. He therefore sent a copy of No. 29 to the American Bank Note Company, with an order to engrave a new plate like it and print 10,000 stamps therefrom.

In December, 1885, on the delivery of the stamps, half of them (5000) were overprinted "Specimen" in blue. The original No. 29, was printed in sheets of fifteen (5x3), but the plate of these "Official Imitations" was made up of fifty stamps (10x5). Later, in 1887, the original plate from which No. 29 was printed was discovered, and, after retouching, 37,500 stamps were printed. These, like the originals, were printed in sheets of fifteen. They were delivered during 1889 and 1890, and 10,000 of them were overprinted "Reprint" at that time. In 1892 all remaining unsold in the Post Office were overprinted "Reprint".

No. 29 is red in color, and printed on very thin white wove paper. No. 50 is orange vermilion in color, on thin yellow paper. In No. 50 the vertical line on the left hand side of the stamp and on the right of the floreate ornaments, touches the horizontal line over the label "Elua Keneta," while in the other two varieties, Nos. 29 and 51, it does not touch the horizontal line by half a millimetre. In No. 50 there are three leaflets in the spandrel above "UKU", while in Nos. 29 and 51 there are four. No. 51 is carmine in color and printed on medium thick yellow paper.

Although not made to fill a postal requirement, it is clamed that both Nos. 50 and 51 were available for postage.

The surcharge in the tablets reads: "5 Rabi al' awwal, 1343" (October 5, 1924), the date of the accession of King Ali.

The tablets vary slightly in size. Each is found reading upward or downward and at either side of the stamp.

Copies of these stamps (perforated or imperforate) without the surcharge, with the exception of No. 185, were not regularly issued and were not available for postage.

In 1924 a reproduction of the signature of Santiago Herrera, covering four stamps, was hand-stamped in violet on stamps of the 1920 issue. This control mark was intended to prevent the use of stamps that had been stolen during a revolution.

Subsequently this control was applied to stamps of the 1924 issue.

Stamps surcharged with the monogram "PS" were never issued for postal use. They are either reprints or remainders to which this surcharge has been applied. Many other varieties have appeared since the stamps became obsolete. It is probable that all or nearly all of them are reprints.

Obsolete March 31, 1901.

Chamba.

The varieties with small letters in the surcharge are not listed as the letters are merely broken and not from another font of type.

It is probable that the issues of 1876, 1877 and the re-issues of the circular stamps were made to supply the demands of philatelists more than for postal needs. They were, however, available for postage.

There exists also reprints, printed in a variety of colors, on native and European thin wove paper. Collectors are warned against official imitations, which are very numerous. They are printed on several kinds of paper and in a great variety of colors.

The surcharge on Nos. 101 to 159 is handstamped and, as usual with that style of surcharge, is found inverted, double, etc., etc. In this instance there is evidence that many of the varieties were deliberately made. We regard most stamps of the issue as unnecessary and speculative.

Several other printings of the Constantinople surcharges were made in 1908. They were in various types, similar to our illustrations. All copies were retained by officials and none were sold to the public, though a few have been passed through the post. We can only regard them as a private speculation.

Lithographed at Laibach.

Fine Impression.

3, 5, 10, 15f: The chain on the right wrist is short, extending only about half way to the frame.

10f: Numerals are 8½mm. high.

20, 25, 30, 40f: The distant mountains show faintly between the legs of the male figure.

40f: Numerals 7mm. high. The upright strokes of the "4" extend to the same height; the "0" is 3mm. wide.

1919-20

Typographed at Laibach and Vienna.

Coarse Impression.

3, 5, 15f: The chain on the right wrist touches the bottom tablet.

10f: Numerals are 7½mm. high.

15f: The curled end of the loin cloth appears above the letter "H" in the bottom tablet.

20, 25, 30, 40f: The outlines of the mountains have been redrawn and they are more distinct than on the lithographed stamps.

40f: Numerals 8mm. high. The left slanting stroke of the "4" extends much higher than the main vertical stroke. The "0" is 2½mm. wide and encloses a much narrower space than on the lithographed stamp.

In the re-engraved design the wheat heads are thicker, the ornament at lower left has five points instead of four, and there are minor changes in other parts of the design.

The sheets of this and subsequent issues were usually divided in half by a single line of perforation gauging 10. Thus stamps are found with this perforation on one side.

In August 1922 a Philatelic Exhibition and Congress was held in Luxemburg, at which copies of Nos. 129 and 130, printed on laid paper and imperforate, were sold. They were not at any time on sale at post offices throughout the country, but only to ticket holders to this exhibition. This appears to be an issue for advertising purposes and not for postal needs.

It is claimed that at various times during the year 1904 there was a shortage of stamps at several places in Madagascar. To meet this shortage, stamps of 10c, 20c, 30c and 50c of Madagascar, type A7 and Diego Suarez, type A11, were cut in half and, after being affixed to letters, hand-stamped "Affranchissement—exceptionnel—(faute de timbres)" and other inscriptions of similar import. We believe these provisionals were entirely speculative and unnecessary.

These stamps were printed in sheets of twelve, four rows of three, and all differ in minor details. The "PENOE" error was No. 7 on the plate. They were in use until 1859. Early impressions show the full background of diagonal and vertical lines; as the plate became worn the vertical lines disappeared, giving the intermediate impressions, and, finally, the lines of the background disappeared almost entirely. The paper of the early impressions is usually rather thick, that of the worn impressions is usually thin.

Prices quoted on above are for stamps without defects and with fair margins on all sides. Inferior specimens can be supplied at much lower prices, while superb copies command large premiums.

All values have been reprinted, some of them several times. The reprints usually show signs of wear and the impressions are often smudgy. The paper is usually thicker than that of the originals. The early reprints are on very white paper, sometimes with laid lines; the later ones are on bluish paper. The 2r has also been reprinted in rose red. The reprints are found unsurcharged and with surcharges and cancellations made both from the original hand-stamps and from forged ones.

Nos. 6, 9, 10, 11 and 12 have been reprinted. The reprints of the ½ and 4r have the head of the long shape, the originals have the short head. The original ½r stamps are much worn but the reprints are unworn. The paper of the 4r is too deep and rich in color and No. 11 is printed in too bright red. The reprints of the 8r can only be told by experts. All these reprints are found in fancy colors and with surcharges and cancellations as in the 1856 issue.

The stamps of the 1872 issue are found perforated with square holes, pin perf. 13, 14 or 15, and with serrate perforation.

The 1868, 12c buff, 50c and 100c (both colors) have been reprinted. The reprints are apparently from new plates. The impressions are clear and sharp and there are more lines in the shading of the face than on the original stamps. The reprints exist with both thin and thick numerals of value, imperforate and perforated and with the "Anotado" overprint.

It is stated that, in parts of Mexico occupied by the revolutionary forces, instructions were given to apply a distinguishing surcharge to all stamps found in the post offices. This surcharge was usually some arrangement or abbreviation of the words "Gobierno Constitucionalista". We list such surcharges as were specially authorized or were in general use in large sections of the country. There were numerous other hand-stamped surcharges each of which was used in one town or locality. At the best they were merely control marks and of no more significance to general collectors than similar control marks used in Ecuador in 1902-07. The fact that they were often struck in an unnecessary variety of colors and positions suggests the influence of philatelists. Eventually the use of stamps bearing any surcharges other than those we list was forbidden. For these reasons we have decided to omit them from the Catalogue.

Many of the foregoing stamps exist with the "G. P. DE M." surcharge printed in other colors than those listed. These "trial color" stamps were not regularly on sale at post offices but were available for postage and used copies are known.

There appears to have been speculation in Nos. 516, 517, 520, 528, 539, 540, 543, 566 and 567. A small quantity of each of these stamps was sold at post offices but subsequently they could only be obtained from officials or their agents at advanced prices.

Montserrat stamps were discontinued in 1890 and replaced by those of Leeward Islands. The separate issues were resumed in 1903, and now both are used concurrently.

MOROCCO, AF.

The best authorities are now agreed that stamps of the above design were not a government issue but were used by local posts to frank mail to the nearest French post offices.

For other stamps, formerly listed under Morocco, see French Offices in Morocco.

Stamps of this and subsequent issues exist with a special perforation, intended to adapt them for use in vending and affixing machines. This perforation is applied to the narrower sides of the stamps. It is usually termed the "interrupted" or "syncopated" perforation and consists of groups of four holes, separated by blank spaces equal in width to two or three holes.

The official stamps became obsolete on December 31, 1894. In August, 1895, sets of 32 varieties of "O. S." stamps, together with some envelopes and postal cards, were placed on sale at the Sydney post office at £2 per set. These sets contained most of the varieties listed above and a few which are not known in the original issues. An obliteration consisting of the letters G. P. O. or N. S. W. in three concentric ovals was lightly applied to the centre of each block of four stamps. It is understood that the earlier stamps and many of the surcharges were reprinted to make up these sets.

The margins of the sheets are watermarked "NEW ZEALAND POSTAGE" and parts of the letters of these words are frequently found on the stamps. It occasionally happens that a stamp shows no watermark whatever.

In 1907 a quantity of the 1p carmine were surcharged "King Edward VII Land" and taken on an expedition to the Antarctic regions. As the only place where these stamps could be used was an alleged post-office, established principally to give color to their issue, and as they were never sold to the public we do not catalogue them.

Similar remarks will apply to the 1p carmine surcharged "Victoria Land."

The engraved stamps have a background of geometric lathe-work; the typographical stamps have a background of crossed dotted lines.

Type A43 has three diamonds at each side of the crown, type A46 has two, and type A47 has one.

In 1916 the 1½, 2, 3 and 6p of the 1915-18 issue and the 8p of the 1909 issue were printed on paper intended for the long rectangular stamps of the 1902-07 issue. In this paper the watermarks are set wide apart, so that the smaller stamps often show only a small part of the watermark or miss it altogether.

The issues of 1890 to 1899 inclusive were printed by the Hamilton Bank Note Co., New York, to the order of N. F. Seebeck who held a contract for stamps with the Government of Nicaragua. This contract gave the right to make reprints of the stamps and such were subsequently made of the issues of 1896, 1897 and 1898, postage, postage due and official stamps, as specified in the notes in italic type following those issues. Our stock has been carefully examined and the stamps sold by us are guaranteed to be originals.

In 1904 a series with surcharge as above except that "Centavos" was spelled out in full, was made to fill a dealer's order. So far as we are aware, none of them were ever used postally. We therefore omit them. About the same time the 2c vermilion of the 1900 issue was surcharged "1 cent" and "1901" "1902" or "1904" in blue. This also was done to fill a dealer's order and none of the stamps were regularly issued or used.

These surcharges are in settings of twenty. We separate them into small and large figures but there are many other varieties, due to type and arrangement. There are two types of the surcharge on the face of the stamps, one having the word "TIMBRE FISCAL" in capital letters and the other with initial capitals only. Some sheets of the 2c have the new value surcharged on the face in olive yellow, black or red, as well as on the back in black. Nos. 231 to 236 are known with "Timbre Fiscal" on both face and back.

"R de C" signifies "Reconstruction de Correo." The stamps are intended to provide a fund for rebuilding the General Post Office which was burned in April, 1921. One stamp must be used on each letter or parcel, in addition to the regular postage. In the setting of one hundred there are five stamps with antique "C" and twenty-one with "R" and "C" smaller than in the illustration. One or more stamps in the setting have a dotted bar, as illustrated over No. 389, instead of the double bar.

The use of the "R de C" stamps for the payment of regular postage is not permitted.

These surcharges are set up to cover twenty-five stamps. Some of the settings have bars or pieces of fancy border type below "OFICIAL.". There are five varieties on No. 913, three on No. 914, and one each on Nos. 915, 916 and 917.

In 1904 No. 914 was reprinted to fill a dealers order. This printing lacks the small figure at the upper right. It includes the variety "OFICILA".

At the same time the same setting was printed in carmine on official stamps of 1900, 1c on 10c violet and 2c on 1p ultramarine. Also the 1, 2 and 5 pesos official stamps of 1900 were surcharged with new values and the dates 1901 or 1902 in various colors, inverted, etc. It is doubtful if any of these varieties were ever in Nicaragua and certain that none of them ever did legitimate postal duty.

The reason for the foregoing surcharges was that at Bluefields and Cabo Gracias a Dios, where they were principally used, silver money was in use, while the rest of the country used paper money, which was not worth as much. The money of the entire country was afterwards placed on a gold basis.

There were several settings of these surcharges, some of which are scarcer than others. In the first setting the periods were on a line with the bottoms of the letters "V. R. I." In the subsequent settings the normal position of the periods was above the line of the letters, though there were many variations in the positions of one or more of them.

The 1p brown and 1sh orange of the 1868 issue were surcharged in error but were not regularly issued, though a few copies got out in some way.

These stamps have been reprinted in a number of shades, on thin to moderately thick, white or yellowish paper. They are without gum or with white, crackly gum. Some of the 50c stamps appear to have been reprinted from the original stone; they are all in a golden yellow shade, less brownish than the orange originals. All values have been reprinted from new stones made from retouched dies. The marks of retouching are plainly to be seen in the sea and clouds. On the original 10c the shield in the upper left corner has two blank sections; on the reprints the design of this shield is completed. The impression of these reprints is frequently blurred.

The stamps of this issue have been reprinted on papers of slightly different colors from those of the originals. These are: 1c yellow green, 2c deep rose, 5c bright blue, 10c straw, 20c violet. The 50c is printed from a very worn stone, in a lighter brown than the originals. The series includes a 10c on lilac paper. All these stamps are to be found perforated, imperforate, imperforate horizontally or imperforate vertically. At the same time that they were made, impressions were struck upon a variety of glazed and surface-colored papers.

There are several settings of these surcharges. Usually the surcharge is about 15½ mm. high, but in one setting, it is only 13 mm. No. 28 is not found in the narrow setting. All the types are to be found with a comma after "CENTAVOS". Nos. 24, 25, 28, 29 and 30 exist with the surcharge printed sideways. Nos. 23, 24 and 29 may be found with an inverted "A" instead of "V" in "CENTAVOS". There are also varieties caused by dropped or broken letters.

The stamps of this issue are to be found with the surcharge placed horizontally, vertically or diagonally; inverted; double; double, one inverted; double, both inverted; in pairs, one without surcharge; etc.

This surcharge has been reprinted in brown rose on the 1, 5, 20 and 50c, in purple on the 1, 2, 50c and 1p, and in magenta on the 5, 20 and 50c. Reprints were also made in rose and black when the hand-stamp was nearly worn out, so that the "R" of "REPUBLICA" appears to be shorter than usual, and the bottom part of "LI" has been broken off. The "P" of "PANAMA" leans to the left and the tops of "NA" are broken. Many of these varieties are found inverted, double, etc. The reprints have been used to pay postage.

This surcharge was set up to cover fifty stamps. "PANAMA" is normally 13mm. long and 1¾mm. high but, in two rows in each sheet, it measures 15 to 16mm. This word may be found with one or more of the letters taller than usual; with one, two or three inverted "V's" instead of "A's"; with an inverted "Y" instead of "A"; an inverted "N"; an "A" with accent; and a fancy "P". Owing to misplaced impressions, stamps exist with "PANAMA" once only, twice on one side, or three times.

Setting "c" appears to be a re-arrangement (or two very similar re-arrangements) of setting "b". The surcharge covers fifty stamps. "PANAMA" usually reads upward but sheets of the 1, 2 and 20c exist with the word reading upward on one half the sheet and downward on the other half. In one re-arrangement one stamp in fifty has the word reading in both directions. Nearly all the varieties of setting "b" are repeated in setting "c" excepting the inverted "Y" and fancy "P". There are also additional varieties of large letters and "PANAMA" occasionally has an "A" missing or inverted. There are misplaced impressions, as of setting "b".

This surcharge is also set up to cover fifty stamps. One stamp in each fifty has "PANAMA" reading upward at both sides. Another has the word reading downward at both sides, a third has an inverted "V" in place of the last "A" and a fourth has a small thick "N". In a resetting all these varieties are corrected except the inverted "V". There are misplaced surcharges as before.

Later printings show other varieties and have the bar 2½ instead of 2mm. wide. The corrections of the various printings of Nos. 78 to 82 range from carmine to almost pink.

No. 83 was never placed in use.

The 20c violet and 50c bistre brown exist with bar 2½mm. wide, including the error "PAMANA", but are not known to have been issued. Some copies have been cancelled "to oblige".

Reprints:

1875 and 1876 issues.

The reprints of the 1sh and 1kr stamps are readily told: the pearls of the circle are heavier, the borders of the circles containing the Persian numeral of value are wider and the figure "1" below the lion is always Roman.

The reprints of the 2 shahi have the outer line of the frame at the left and at the bottom broken and on some specimens entirely missing.

The only distinguishing mark by which to tell the 4 shahi and 4 kran stamps is the frame, the outer line of which is of the same thickness as the inner line, while on the originals the inner line is very thin and the outer line thick; another feature of some of the reprints is a break in the ornament in the lower part of the circle below the figure "4".

In the reprints of the 8 shahi stamps the small scroll nearest to the circles with Persian numerals at the bottom of the stamp touches the frame below it; the inner and outer lines of the frame are of equal thickness, while in the originals the outer line is much heavier than the inner one.

All reprints are found cancelled to order.

Four varieties of each.

Nos. 33 and 34 are printed from re-engraved clichés. They have wide colorless circles around the corner numerals.

The reprints of the 1 kran and 1 toman are printed from the same die as the reprints of the 1 shahi and 1 kran of the 1876 issue; on these and on the reprints of the 5 krans the outer frame is of irregular thickness. The impression of the reprints of this issue is better than that of the originals.

TWO TYPES:

Type I. "CHAHI" is in capital letters.

Type II. Only the initial letter of "Chahi" is a capital.

The 3c and 5c sometimes have a tall narrow figure in the upper left corner. The 5c is also found with the cross at the upper left broken or missing. These varieties are known with many of the overprints that were applied to type A25.

The reprints of the 2c are printed on a whiter and thinner paper than the originals, which are on a thick yellowish white paper. The embossing of the reprints is much sharper and the printing has been done more carefully. On the originals the frame line at the left is thinner than on the other sides. The reprints have the frame of equal thickness on all four sides.

Reprints were made in 1884. The over-print is from a new die in which the word "PLATA" is 3 mm. high instead of 2½ mm. The cross bars of the letters "A" of that word are set higher than on the original die. The 5c is printed in blue instead of ultramarine.

The stamps formerly catalogued as Nos. 34 to 64 are now listed under "Occupation Stamps", Nos 901 to 923.

For differences between the original and the re-engraved stamps see note on the 1883-86 issue of Cuba. In the Philippines, however, the second re-engraving does not have the opening in the hair as rounded as on the same stamps of Cuba and Porto Rico. It is more like the first re-engraving but the lock of hair is less pointed and has a broader white line below it.

Issues of the Republic.

Local issues were made in various Polish cities during the German occupation. In the early months of the Republic many issues were made by surcharging the German occupation stamps with the words "Poczta Polska" and an eagle or bars, often with the name of the city. So far as we can learn these issues were not authorized by the Government but were made by the local authorities and restricted to local use. In 1916 a series of stamps was issued for the Polish Legion and in 1917-18 the Polish Expeditionary Force is said to have used surcharged Russian stamps. The regularity of these issues is questioned.

		a. 25r deep blue	15.00	35
3	A3	50r deep yellow green	100.00	25.00
		a. 50r blue green		25.00
4	A4	100r lilac	250.00	60.00

The stamps of the 1853 issue were reprinted in 1864, 1886 and 1905. Many stamps of subsequent issues were reprinted at the last two dates. The reprints of 1864 are on thin white paper with white gum. The originals have brownish gum which often stains the paper. The reprints of 1886 are on a stout, very white paper. They are usually ungummed, but occasionally have a white gum with yellowish spots. The reprints of 1905 are on creamy white paper of ordinary quality with shiny white gum.

When perforated the reprints of 1886 have a rather rough perforation 13½

with small holes; those of 1905 have a clean cut perforation 13½ with large holes making sharp pointed teeth.

The colors of the reprints usually differ from those of the originals, but comparison is necessary for this feature.

The reprints are often from new dies which differ slightly from those used for the originals.

5 reis: There is a defect in the neck which makes the Adam's apple appear very large in the first reprint. The later ones can be distinguished by the paper and the shades and by the absence of the pendant curl.

25 reis: The burelage of the ground work in the original is sharp and clear, while in the 1864 reprints it is blurred in several places; the upper and lower right hand corners are very thick and blurred. The central oval is less than ½ mm. from the frame at the sides in the originals and fully ¾ mm. in the 1886 and 1905 reprints.

50 reis: In the reprints of 1864 and 1886 there is a small break in the upper right hand diagonal line of the frame, and the initials of the engraver (F. B. F.), which in the originals are plainly discernable in the lower part of the bust, do not show. The reprints of 1905 have not the break in the frame and the initials are distinct.

100 reis: The small vertical lines at top and bottom at each side of the frame are heavier in the reprints of 1864 than in the originals. The reprints of 1886 and 1905 can only be distinguished by the paper, gum and shades.

The 5r dark brown, formerly listed and sold at about $1.00, is now believed by the best authorities to be a reprint made before 1866. It is printed on thin yellowish white paper with yellowish white gum and is only known unused. The same remarks will apply to a 25r blue which is common unused but not known used. It is printed from a die which was not used for the issued stamps but the differences are slight and can only be told by expert comparison.

Nos. 9 and 10, also 10a in rose, were reprinted in 1886 and Nos. 9, 10, 10a and 11 in 1905.

Issued to commemorative the flight of two aviators from Portugal to Brazil.

This issue was manipulated by a syndicate of employees of the Post Office who had the privilege of buying all remainders at a large discount from face values. The time of sale was so arranged that the public had only half a day in which to purchase the stamps. They were sent to only a few cities and complete sets were not obtainable anywhere.

There were three printings of the 1882-83 issue. The first had "REIS" in thick letters with acute accent on the "E." The second had "REIS" in thin letters with accent on the "E." The third had the "E" without accent. In the first printing the "E" sometimes had a grave or circumflex accent.

The third printing may be divided into two sets, with or without a small circle in the cross of the crown.

Stamps doubly printed or with value omitted double, inverted or misplaced are printer's waste.

Nos. 162 to 168 inclusive have been reprinted on thin white paper, with shiny white gum and clean cut perforation 13½.

The stamps of the 1879-80 issue were electrotyped from plates made up of groups of four types, differing in minor details. Two dies were used for the 1p and 2p, giving eight varieties for each of those values.

There are two varieties of the watermark, differing slightly in the position and shape of the crown and the tongue of the "Q".

These stamps have been reprinted several times. The reprints usually resemble the originals in the color of the paper but there are impressions on incorrect colors and also in colors on white paper. They often show broken letters and other injuries. The Y shaped ornaments between the small circles in the corners are broken and blurred and the dots outside the circles are often missing or joined to the circles.

The stamps of Romagna were superseded by those of Sardinia in 1859.

The stamps of the 1867 and 1868 issues have been reprinted, these reprints are very well executed, and it is very difficult to distinguish them from the originals. Most of the perforated reprints gauge 11½.

The Roman States stamps were superseded by those of Italy in 1870.

		b. Tête bêche	20.00	

Nos. 11 to 18 inclusive have usually been described as "hand-stamped". The impressions are, however, much too fine and clear for hand-stamps. The stamps were apparently printed with a hand press one at a time, from single dies. The impressions were very irregularly placed and occasionally over, lapped. Such sheets as we have seen contained thirty-two stamps in four rows of eight. The third and fourth rows were printed inverted, thus making the second and third rows tête bêche, foot to foot.

Typographed from Plates.

		b. Tête bêche	5.00	
		c. Pair, one sideways	3.00	
		d. Bluish wove paper	15.00	6.00

The stamps of the 1862 and 1863 issues can usually be distinguished by the colors. In the 1862 issue the 3pa and 6pa are often blurred and appear greasy, the 30pa are usually clearly printed. The 30pa of 1863 usually has a large dot at the left of the eagle's crown.

The plates for the 1863 issue contained forty cliches in five rows of eight. The first and second rows were inverted. The cliches in the third row were placed sideways, four with head to the right and four with head to the left, making one tête bêche pair. The fourth and fifth rows were in normal position.

The "Timbru de Ajutor" stamps represent a war tax on postal matter. The money obtained from their sale was turned into a fund for the assistance of soldiers' families.

Until 1923 the only "Timbru de Ajutor" stamps used for postal purposes were the 5b and 10b. Stamps of higher values with this inscription were used to pay the taxes on railway and theatre tickets and other fiscal taxes. In 1923 the postal rate was advanced to 25b.

There are small differences between the lithographed stamps of 1923 and the typographed of 1923-25. On a few values this may be seen in the numerals.

Type A58: Lithographed. The two white lines forming the outline of the ear are continued across the cheek. Typographed. The outer lines of the ear are broken where they touch the cheek.

Type A59: Lithographed. At the top of the right shoulder a white line touches the frame at the left.

Counting from the edge of the visor of the cap, lines 5, 6 and sometimes 7 touch at their upper ends. Typographed. The top line of the shoulder does not reach the frame. On the cap lines 5, 6 and 7 run together and form a white spot.

Type A60: In the angle above the first letter "C" there is a fan-shaped ornament enclosing four white dashes. On the lithographed stamps these dashes reach nearly to the point of the angle. On the typographed stamps the dashes are shorter and often only three are visible.

On unused copies of the typographed stamps the raised outlines of the designs can be seen on the backs of the stamps.

In 1905 remainders of these stamps were sold by the postal officials. They are cancelled with bars, arranged in the shape of diamonds, in purple ink. No such cancellation was ever used in the Island and the stamps so cancelled are of no philatelic value. Collectors are warned against these stamps, from which the cancellations have been removed.

The issues of 1890 to 1898 inclusive were printed by the Hamilton Bank Note Co., New York, to the order of N. F. Seebeck, who held a contract for stamps with the government of Salvador. This contract gave the right to make reprints of the stamps and such were subsequently made in some instances, as will be found noted in Italic type. Our stock has been carefully examined and the stamps sold by us are guaranteed to be originals.

The stamps of this issue, as originally printed, had the portrait of President Ezeta, in a different frame for each value. He was overthrown and before the stamps were issued the portrait was overprinted with the National Coat of Arms. The stamps without overprint were never regularly issued though copies have reached collectors.

The 2c has been reprinted in dark yellow green on thick paper.

The 1p frequently has a period after the word "PENNY."

The 2p was never placed in use.

Imperforate stamps of this issue are printer's waste.

The sheets of the first issue were not perforated around the outer sides. All values except the 2p were printed in sheets of ten, two rows of five. The 1p, 3p and 6p type I and the 1p type III were also printed in sheets of twenty, four rows of five, and six stamps on each of these sheets were perforated all around. The 2p was printed in sheets of twenty one, three rows of seven, and five stamps in the second row were perforated all around.

These are the only varieties of the original stamps which have not one or two imperforate edges.

The reprints are all of type III and are nearly always perforated on all sides. They have a spot of color at the edge of the panel below the "M" of "SAMOA" which is not found on any originals except the 2p, which may be distinguished by its color, and the 9p which may be distinguished by having a rough blind perforation 12.

In 1911 No. 48 appeared on yellowish tinted paper and measuring about ½mm. more in width than hitherto. It was stated that the stamp had been re-engraved. We do not find any changes in the design and believe the slight difference in size is due to the new paper not shrinking as much after printing as the old.

It is stated that these stamps were issued by the Serbian Postal Bureau, in the Island of Corfu, during a temporary shortage of Serbian stamps. On the 1c to 35c, the overprint covers two stamps. The majority of philatelists regard it as being merely a form of cancellation.

Nos. 422 to 442 were prepared in 1914, at the time of the first Austrian occupation of Serbia. They were not issued at that time because of the retreat. The stamps were put on sale in 1916, at the same time as Nos. 401 to 421, but were entirely unnecessary.

The re-drawn design of the satang stamps varies in numerous minute details from the 1912 issue. Four lines of the background appear between the vertical strokes of the "M" of "SIAM" in the 1912 issue and only three lines in the 1917 stamps.

The 1912 stamps with value in bahts are 37½ mm. high; those of 1917 are 39 mm. In the latter the king's features, especially the eyes and mouth, are more distinct and the uniform and decorations are more sharply defined.

The 1912 stamps have seven pearls between the ear pieces of the crown. On the 1917 stamps there are nine pearls in the same place.

114	A2	1k on 2k gray green	50
115	"	3k on 4k rose	60

The surcharge is in a rectangular frame on stamps of 1k to 10k and 1r; on the other values the frame is omitted. It is larger on the 1 ruble than on the smaller stamps.

The surcharge reads "Priamurski Zemski Krai" Priamur Rural Province.

These stamps were reprinted three times in 1881 and once in 1887. The originals have 23 white lines and dots in the lower right spandrel. They are thin and of even width and spacing. The first reprint has 17 to 20 lines in the spandrel, most of them thick and of irregular width and length. The second and third reprints have 21 very thin lines, the second from the bottom being almost invisible. In the fourth reprint the lower right spandrel is an almost solid spot of color.

Originals of type A1 have the curved line above "ESPANA" broken at the left of the "E." All reprints of this type have the curved line continuous.

The reprints exist in various shades of blue, rose, red, violet and black.

Nos. 701 to 718, also 851 and 901 to 905 were used for regular postage on Sept. 15, 16, 17, 1926. They were not sold uncancelled but when letters were handed in at the Post Office the stamps were affixed and cancelled by the clerks. Subsequently the unsold stamps were given to the Spanish Red Cross Society, by whom they were sold uncancelled but they then had no franking power.

The re-engraved 2p measures 33½x25mm. instead of 32½x24½mm. There are many slight changes in the clouds and other parts of the design.

The 4p is much lighter, especially the waterfall and the trees above it. This has more the appearance of a new or cleaned plate than a re-engraved one.

In the re-engraved 6p there are more colored lines in the waterfall and the river and more white dots in the trees.

Numerous trial impressions of the stamps of types A1 and A2 exist in both the accepted and fancy colors, including the 3p imperforate and tête bêche as formerly listed. Some of them are from the original plates but the majority are from small experimental plates. Many of them can only be told from the issued stamps by expert comparison.

There are reprints of the 6p, type A2, in duller shades than the originals.

The so-called reprints of typ A1e were made from new plates. They have the design slightly altered, the most notable difference being in the head of the eagle which has the beak open and hooked like a parrot's.

The 3p stamps have been reprinted from a small plate of sixteen stamps made from a duplicate of the original die. The stamps from this plate show numerous small flaws and defects.

The reprints of No. 120 are in dull orange red. The impression is usually clearer than that of the originals and the gum is yellowish white.

The reprints of No. 121 are in brownish black on bright rose, while the originals are in gray black on lilac rose.

The so-called reprints of the 1p, 1sh, and a companion 6p of Type A1 are from the counterfeit plates described under the first issue.

Nos. 193 to 201 inclusive are always imperforate on one side.

The setting consisted of twelve stamps of type A18, six of type A19, and six of type A20. The first printings were of the ½p, 1p, 4p and 6p stamps and contained many errors of spelling, punctuation, etc. Many of these errors were corrected in the later printings, which comprised all the denominations of the series. On the ½p stamps of the first printing the initials of the Controller were written in black ink. On subsequent printings they were in red. Black ink was always used for all the other denominations.

Reprints were made in 1893 and some values have been reprinted twice since then. The shades usually differ from those of the originals and some reprints have white gum instead of grayish. All values except the 15c and 40c have been reprinted from retouched designs, having a background of horizontal ruled lines.

The watermark consists of twelve crowns, arranged in four rows of three, with horizontal and vertical lines between them. Only parts of the watermark appear on each stamp.

Reprints:

The 2 soldi and 60 crazie have been reprinted in brown red on watermarked paper; the colors of the reprints are heavy and blurred.

Impressions on unwatermarked paper are proofs.

The first printing of the 1 peso stamp had the coat of arms smaller with quarterings reversed. Those "error" stamps were never placed in use and all were ordered burned. A copy is known to have been in a celebrated Uruguayan collection and others may exist but, at best, they can only be considered as essays.

It is stated that by the decrees mentioned these stamps were made "postage and revenue" stamps. They were the only stamps available for postage in Venezuela from March, 1871 to August, 1873.

Only a few of the larger cities had cancelling stamps at this period and the majority of specimens were cancelled with pen marks. Fiscal cancellations were also made with the pen. Our prices are for pen-cancelled copies.

In 1879 and the early part of 1880 there were no regular postage stamps in Venzuela and the stamps inscribed "Escuelas" were permitted to serve for postal as well as fiscal purposes. Postally cancelled copies are extremely scarce. Our prices are for stamps with cancellations of banks or business houses or with pen cancellations. Collectors are warned against copies with pen marks removed, that are offered as unused stamps or with fraudulent postal cancellations.

Nos. 47 to 53 were used for the payment of postage on letters to be sent abroad and the Escuelas stamps were then restricted to internal use.

Reprints of this issue exist in a great variety of shades as well as in wrong colors. They are on thick and thin paper, white or toned, and perforated 11, 12 and compound. They are also found tête bêche. Reprints of Nos. 47 to 51 inclusive often have a diagonal line across the "S" of "CENTS" and a short line from the bottom of that letter to the frame below it. Originals of No. 53 show parts of a frame around "BOLIVAR". This frame does not appear on the reprints.

In 1890 the original dies were sent to Barcelona, Spain, where new stones were made by transfers from them. Sheets printed from these new stones show many varieties that did not exist among the originals. There are numerous tête bêche pairs of all values, such artificial errors as "Coerros," "Corroes," "Mirenda," imperforate and partly perforated stamps, etc. When the reprints reached Venezuela, some of them were substituted for the original stamps and mixed in the stocks in Post Offices. They are known cancelled and it is possible that a few were genuinely used.

The colors of the reprints are duller than those of the originals. They are found in many shades. The paper of the originals is thin, white and semi-transparent. The gum is shiny and crackled. It is usually white but sometimes yellowish and tinting the paper. The paper of the reprints is thick, opaque and yellowish (from cream to almost buff). The gum is dull, smooth, thin and only slightly adhesive.

Nos. 180 to 213 were issued by a group of revolutionists for speculative purposes but they appear to have had a limited local use.

Reprints have been made in large quantities. They are from new plates showing alterations in the designs and borders. The names of various states and districts are included in the settings or surcharged on the stamps. Errors of color, etc. are provided. The control mark is from a new handstamd and many of the stamps are cancelled "to oblige" with a different cancellation from that used on the original stamps.

The 50c with centre in blue was never issued although copies were postmarked by favor.

There were two printings of most denominations of this issue. In the first the centres were separately printed and often vary in shade from the rest of the design. In the second the entire design was printed at one time.

The re-engraved stamps have two berries instead of one at top of the left spray; a berry has been added over the "C" and "S" of "Centimos"; and the lowest leaf at the right is cut by the corner square.

After the supply of paper watermarked Crown and C C was exhausted, No. 72a was printed. Ostensibly this was to provide samples for Postal Union distribution, but an abundant supply for philatelic demands was also made. The stamp is practically a reprint, though available for postage.

Tho four letters in the surcharge are the initials of Russian words equivalent to "Western Ukrainian National (or Peoples) Republic." The country was formed from Bukovina and the eastern part of Galicia, formerly provinces of the Austro-Hungarian Empire. The best available information is that Ukrainia and Western Ukrainia were separate and independent governments.

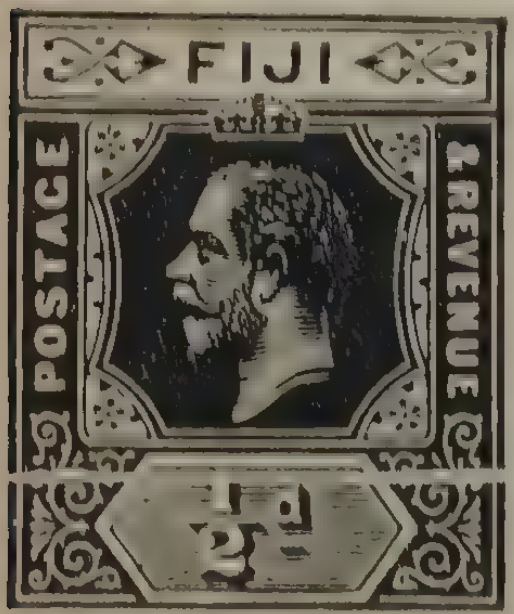
Dies of British Colonial Stamps referred to in the Catalogue.

DIE A

1. The lines in the groundwork vary in thickness and are not uniformly straight.
2. The seventh and eighth lines from the top, in the groundwork, converge where they meet the head.
3. There is a small dash by the upper part of the second jewel in the band of the crown.
4. The vertical color line in front of the throat stops at the sixth line of the shading on the neck.

DIE B

1. The lines in the groundwork are all thin and straight.
2. All the lines of the background are parallel.
3. There is no dash in the upper part of the second jewel in the band of the crown.
4. The vertical color line in front of the throat stops at the eighth line of shading on the neck.

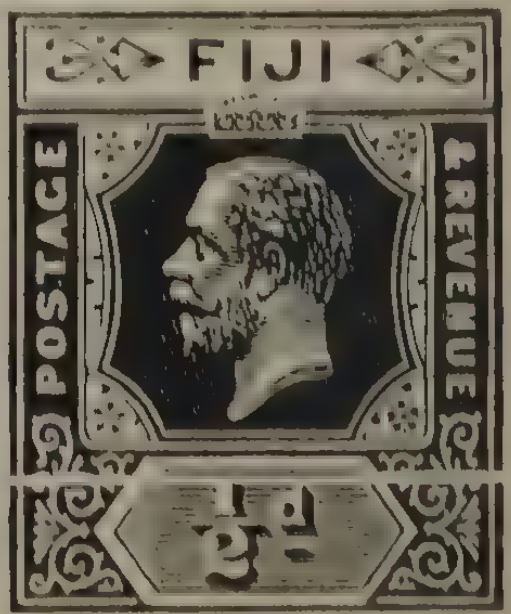


DIE I.

1. The second (thick) line below the name of the country has the ends next the crown cut diagonally.
2. The labels inscribed "POSTAGE" and "REVENUE" are cut square at the top.
3. The white outline below the bust is straight, or nearly so, at the right end.
4. There is a white "bud" on the outer side of the main stem of the curved ornaments in each lower corner.

DIE Ia.

1 as die II.
2, 3 and 4 as die I.



DIE II

1. The second line has the ends next the crown cut vertically.
2. The labels curve inward at the top inner corners.
3. The white outline curves upward at the right end and nearly touches the corner of the bust.
4. The "bud" has been removed from the outer curve of the ornaments in each corner.

DIE IIa.

1, 3 and 4 as die II.
2 as die I.

WATERMARKS

This section illustrates every watermark appearing on the postage stamps listed in this catalogue.

These illustrations were made through a photographic process and are exact reproductions of the watermarks as they appear on the stamps selected.

In compiling a group of illustrations such as this it is impossible to show every minor variation of the watermarks. In fact, hardly any two watermarks are alike in every detail. This is because of the manner in which they are made, viz.:

Pieces of wire are bent to form the designs and are then sewn or soldered onto a cylinder of wire mesh. The designs are known as "bits" and the cylinder with the bits attached as the "dandy roll." The dandy roll is placed so that it squeezes out the water from the paper as it passes from the pulp state to the drying rolls, and while performing this function also leaves the impressions of the bits in the paper. These impressions are watermarks.

The bits often become bent during the process of attaching them to the dandy roll and during the operation of the roll itself; thus causing countless minor variations in the designs impressed into the paper. When bits are stamped from thin brass sheets, there is not so great an opportunity for these variations to occur.

Special List of Stamps in Sets

NOTE.—All the stamps contained in these sets are guaranteed genuine originals and in good condition.

No set contains more than one stamp of a kind.

In making up this series of sets we have been careful to avoid all distinctions of perforations and other minor differences, so that the collector who does not collect these varieties will find no duplicates.

All Sets and Packets are strictly net. No discount.

Sets marked (*) contain unused stamps only.

Additions to this list will be advertised in Scott's Monthly Journal.

Scott-Seald Packets

(Sealed by Scott for Safety)

This year we take pleasure in offering you not only a larger line of packets than ever, but one which we think is superior in value to any that has ever been offered.

Scott Sealed packets are unqualifiedly guaranteed to contain

GENUINE STAMPS ONLY

They contain no foreign revenues, telegraphs, envelopes, reprints or counterfeits, such as are commonly found in packets of uncertain origin and which make such packets dear, whatever price is asked for them.

INTERNATIONAL MIXTURE No. 61

1000 Mixed Stamps

Now Only 25c.

The famous International Mixture No. 61 now sells for 25 cents, post free. Although this mixture is an accumulation of cheap grades that it does not pay us to sort, its tremendous popularity proves its value and that FINDS of good stamps are made. This mixture contains no United States stamps.

1000 unsorted foreign mixed, sold by us as received.

No. 63

OUR FAMOUS MINT MIXTURE

This has proved one of the most popular offerings we have made in years. A wonderful opportunity for the trader, and for the student of recent issues.

This mixture contains 1,100 foreign stamps.

Every stamp is unused—in mint condition.

Each packet is guaranteed to contain not less than 100 varieties.

And there are not more than 26 stamps of any one variety in the packet.

We are offering this Mixture as long as we are able to obtain these stamps at the remarkably low price of

ONE DOLLAR

JUNIOR ALBUM PACKETS

Scott-Seald

"A special series of non-duplicating Packets so designed that no stamp is included unless a SPACE HAS BEEN PROVIDED FOR IT IN THE 1927 EDITION OF THE JUNIOR ALBUM.

A splendid way, a better way to collect stamps—there is no more duplication—no further necessity for an unsightly grouping of stamps about the margins of your album pages.

WE GUARANTEE THAT

THERE IS A SPACE IN YOUR 1927 JUNIOR ALBUM FOR EVERY STAMP IN THESE PACKETS.

These "MADE IN AMERICA PACKETS" are of sound stamp stock—such as is usually sold individually on approval sheets.

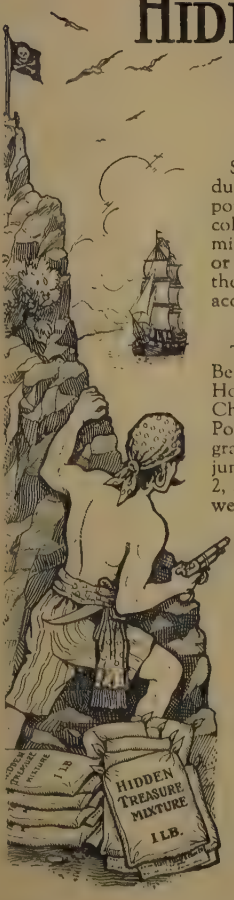
HIDDEN TREASURE MIXTURE



Mixed Stamps in Cloth Sacks by the Pound

Steadily, year in and year out, we have dumped into one huge bin pound after pound of mixed stamps. Tale ends of collections that we have bought, little mixtures that have come to us in one way or another. A handful here, a pound there, and so on until at last there has accumulated a vast pile of

More than Five Tons of Stamps!

There are stamps from Austria, France, Belgium, England, Hungary, Germany, Holland and India. Some from Brazil, China, Canada, Chile, Guatemala, Poland, Portugal, United States and Italy. A grand assortment which we have just jumbled together and weighed into 1, 2, and 5 pound sacks; and in every sack we have placed

A Special Prize Set of Stamps
The Hidden Treasure

These Hidden Treasure sets are an accumulation of sets that have been discontinued from our regular set lists. There are hundreds of different sets so that, while we can not guarantee that the same set will not be placed into two sacks, the chances are in favor of you getting a different Hidden Treasure set in each sack of ***Hidden Treasure Mixture*** which you purchase.

While they last.

A COLLECTION

OF

UNITED STATES STAMPS

900 Varieties, selected with care and mounted in the latest Loose Leaf Edition of our National Album

A splendid start toward substantial completeness housed in the best album you could possibly have for the purpose.

If you are looking for the right kind of a start or wish to develop a comparatively weak collection of United States you can purchase this offering with the utmost assurance.

We have endeavored to make this a balanced accumulation of stamps and though it is strong in the regular postal issues, revenues, departments, telegraphs and envelopes are also well represented.

The collection mounted as described

Approval Department Service

The Approval Department is the service end of the Scott organization. We have prepared selections designed to meet every demand. These are described in full in our APPROVAL CIRCULAR which we will gladly send to all requesting it. Where none of these regular selections are appropriate, we will arrange special selections in accordance with any collector's ideas whenever practical.

Requests for stamps on approval from persons unknown to us should be accompanied by the usual commercial references.

FEATURES OF THE APPROVAL DEPARTMENT

Stamps of extremely low catalogue value can be most economically purchased in the form of sets and packets. We advise our customers to exhaust the possibilities of PRICE LIST of Sets, Dime Sets and Packets before considering the advantages offered by our APPROVAL DEPARTMENT.

Want Lists

There is a good chance that many of the stamps that have heretofore eluded you, can be obtained from us through the medium of our WANT LIST SERVICE. Discounts as for green books.

New Issue Service

This service in its new and reorganized form has assumed added importance since the appearance of our New Issue Provisional Album. To all interested customers we will forward monthly on approval all of the new issue stamps the customer designates. Remember, new issues are often short lived, resulting in sharp price advances.

Regular Approval Books

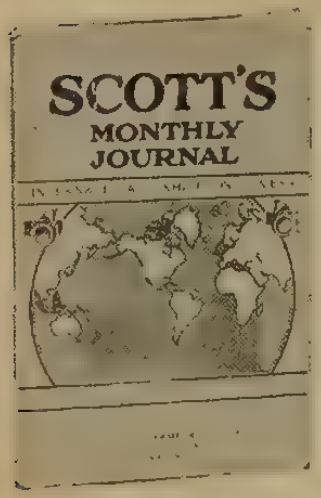
GREEN BOOK—Selections by Countries.
Ten Per Cent To Twenty Per Cent Discount.

Green books have been prepared covering practically every country listed in the catalogue. Containing the very best in our extensive stock, these books can be recommended to any one desiring to build up a collection, be it large or small, with the finest material available.

PINK BOOK—At 25% Discount—Splendid range of Foreign Stamps and strong in unused Twentieth Century Issues.

BROWN BOOK—At 50% Discount—United States and Foreign stamps in endless variety. A real opportunity for the general collector.

BLUE BOOK—At 80% Discount—Defective stamps of all groups as available.



SCOTT'S Monthly Journal

Start Your Subscription With the October Issue

This is the only sure way to keep in touch with the rapidly changing values of stamps. Each month Scott's Monthly Journal contains complete listing of new issues, as well as price changes.

In this way it is a current supplement not only to the Standard Catalogue, but through the addition of a new department on U. S. it also supplements the U. S. Specialized Catalogue.

It also contains regularly listed bargains in stamps that are advertised nowhere else, through which, often on a single purchase you can save the price of a year's subscription.

And in addition, Scott's Monthly Journal is the breeziest and most up to the minute stamp journal published.

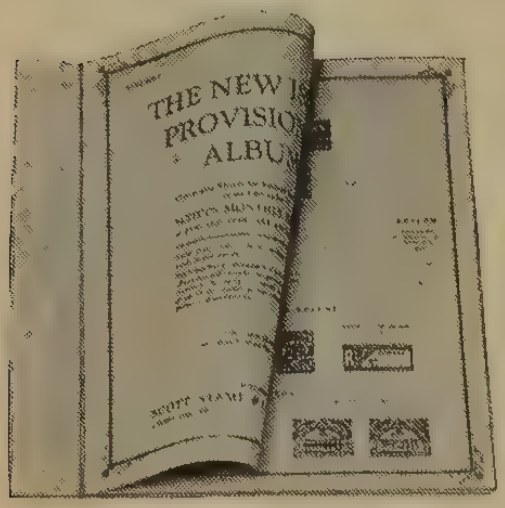
International Albums—(Continued)

The New Issue Provisional Album

Is issued quarterly as a continuation of the International Twentieth Century, Part Two, published early in 1926. It made its first appearance in May, 1926, and provides for all new issues as they appear and are chronicled in Scott's Monthly Journals until such time as they shall be included in the Part Two.



This is sold only as a serial, beginning with Volume One, Number One. Subscriptions are now in order for the eight serial numbers for the calendar years 1926-1927.

Price for the Eight Numbers
$5.00, Post free

Screw-Post Binder

The New Issue Provisional Album is the same size as the International Albums and is provided with a hinged back so that it may be used in the Loose-Leaf Editions of same. Many collectors, however, have asked for a special binder and in order to meet this demand, we have prepared a screw-post binder bound in special black keratol leather, handsomely stamped in gold.

These binders are now in stock.

POCKET MAGNARULE

The Magnarule is offered for the first time to stamp collectors through the Scott Stamp & Coin Company. It can be carried in the vest pocket or in milady's handbag and is a most convenient combination of four philatelic necessities in one. It is made of highly polished crystal zylonite. A strong lens, 1¼ inch in diameters is mounted in one end.

The Magnarule is also an attractive and very useful instrument for the desk or the library table. To slit the uncut pages of new books, to open letters, to take small measurements, or to magnify detail not readily examined with the unaided eye, are a few of the ways in which it can serve.

Accessories (Continued)

SCOTT STAMP TONGS

Manufactured expressly for stamp work, they are easily distinguishable from the ordinary inferior tong by their thin, yet smooth, perfectly meeting edges, which permit sliding under and picking up the stamp without difficulty, and without danger of damaging the stamp in any way. These tongs we highly recommend and no philatelist should be without at least a pair.

Price 35 cents—Post free

Perforation Rule and Millimetre Scale

For measuring surcharges, identifying perforations, etc. Lithographed on highest quality Bristol board. Absolutely accurate.

Price 10 cents—Post free

Gummed Titles of Countries

For use in heading pages of blank albums. Contains 832 names of stamp issuing countries.

Price 35 cents per set—Post free

THE SCOTT WATERMARK DETECTOR

This watermark detector is probably the most widely used in the world. By special manufacture we have succeeded in securing a jet black crystallized tray that will throw up the most difficult watermarks, and at the same time can in no way be affected by benzine or other liquids and thus endanger the stamp. Large enough to hold a block of four. Fitted into convenient black cloth covered box with hinged cover.

Directions are printed inside the cover.

Price 50 cents—Postage 5 cents extra

THE SCOTT LINE *of* STAMP MOUNTS

Hinges even the best, are so infinitesimal in cost as compared with the damage to even a cheap stamp that a poor hinge may cause that no one should consider a hinge that is not of the finest quality.

Scott Hinges are a combination of paper and adhesive that we can offer, after long experimentation, as perfect, and safe to use on any stamp.

They are absolutely peelable under all conditions, tasteless and tough.

The Luxor Hinge

This is a De Luxe hinge, being large in size, translucent and with a surface upon which dates or other data may be inscribed. For sale everywhere.

1000—20 cents, post free

The Superior Hinge

Smaller in size than the Luxor but a splendid hinge and absolutely dependable for ordinary work.

1000—10 cents, post free

NOTE—In using hinges, the hinge and NOT the stamp should be moistened, and hinges should never be removed from either stamp or album page until absolutely dry as otherwise either stamp or page will be almost certainly damaged.

PROTECT YOUR WORTHWHILE COVERS WITH VISCOLOID ENVELOPES

The value of stamps on original covers is largely a matter of appearance. This value is conserved and enhanced by the use of these envelopes.

Of crystal-like clarity and stout celluloid construction, the VISCOLOID envelopes protect and beautify your original covers.

The collector and dealer alike will be quick to realize the utility of this new philatelic accessory.

Made to fit the cover of average size.

Size 6⅛ x 3¾. Price 12 for $1.50

Sold only in packages of 12.

SCOTT TRANSPARENT ENVELOPES

These envelopes which are invaluable to the collector for sorting and duplicate, are made of the finest quality Moisture Proof Glassine. A special new size E has been added this year because of the many requests from our dealers.
